**KNOB STYLE GLIDES**

The IEC Knob Style Steel and Stainless Steel Glide is ideal for light and moderate duty load requirements. These low-profile, solid bottom, large diameter black polypropylene base glides are perfect for leveling and stabilizing furniture, racks, instruments and appliances without the need for tools. The unique rigid design can withstand failure when subjected to “drop-tests” and excessive tilting. Useful in both feet and knob applications. Special thread lengths can be specified and easily manufactured. Top hex (-HX) and slot standard (-SL) on some sizes. Top slot can be added to any item, add (-SL) to part number.

### 36 - Knob Style (PVC Base)

The 1-1/2” and 2” diameter base is available in a flexible, non-skid, non-marring black PVC, rubber-like material.

Many colors available as custom option.
The IEC Metric Knob Style Steel and Stainless Steel Glide is ideal for light and medium duty load requirements. These low-profile, solid bottom, large diameter black polypropylene base glides are perfect for leveling and stabilizing furniture, instruments, racks and appliances without the need for tools. The unique rigid design can withstand failure when subjected to “drop-tests” and excessive tilting.

Useful in both feet and knob applications. Special thread lengths can be specified and easily manufactured. Top hex (-HX) and slot (-SL) on some sizes. Top slot can be added to any item, add (-SL) to part number. Up to 1,000 lb. load ratings.

**KNOB STYLE GLIDES - New Metric Sizes**

The IEC Metric Knob Style Steel and Stainless Steel Glide is ideal for light and medium duty load requirements. These low-profile, solid bottom, large diameter black polypropylene base glides are perfect for leveling and stabilizing furniture, instruments, racks and appliances without the need for tools. The unique rigid design can withstand failure when subjected to “drop-tests” and excessive tilting.

Useful in both feet and knob applications. Special thread lengths can be specified and easily manufactured. Top hex (-HX) and slot (-SL) on some sizes. Top slot can be added to any item, add (-SL) to part number. Up to 1,000 lb. load ratings.

**Thread**

**Top Hex (-HX) and Slot (-SL)**

Many colors available as custom option.
